GREEN TIP

In Your Hands

Part of a sustainable future is maintaining health and clean practices. Disease still has major impacts even in advanced countries. According to the Centers for Disease Control (CDC), the U.S. loses \$120 billion a year to infectious diseases, and more than 160,000 people in the U.S. die during a year from an infectious disease. The CDC maintains that good hand hygiene is crucial in preventing the spread of flu viruses. The CDC offers guides to hand washing at <http://www.cdc.gov/germstopper/>. Good hygiene will make a major difference in building for a healthy future.
